NO. 31.

L. & A. Extension.

The contractors on the new railroad are making great preparations for the prosecution of their work. Two train loads of material were forwarded from Versailles last Sunday to the end of the line at Miller's Creek. The shipment included forty-two gondolas loaded with dump carts, scrapers, picks, shovels and other tools. A monster steam shovel and Mason, Hoge & Co.'s private locomotive were also in the shipment. Actual work will be commenced at once on Miller's Creek.

At this point several car loads of tools have arrived. The most important is the drills, tracks and cars for the work on the Yellow Rock tunnel. The lumber for the commissary and other buildings has already been sent down.

It seems like an impossible task to have the road in operation to Beattyville by the 1st of December, but Mason, Hoge & Co. will put all their men and tools to work in the effort to fulfill their contract. — Beattyville News.

Unearthed A Treasure.

J. E. S. Ott, of Buena Vista, Boyle county, while hoeing in his garden unearthed \$1,600 silver dollars. About two years ago he was told by a Gypsy fortune teller that he would discover a large treasure there and shortly afterwards found \$2 a few yards from where the \$1,600 was found. The treasure was in a wooden box of two-inch plank and the coins were considerably tarnished by exposure. The money was buried in war times.

Milton Hutson, who has been in Missouri for some time has returned. He reports corn crops greatly damaged.

Swindled Out of a Neat Sum.

A farmer in an adjoining county was swindled out of \$500 in a smooth manner one day recently. A stranger came along and bargained for the purchase of a farm at \$55 per acre. A \$500 forfeit was agreed upon should either party go back on the bargain. In a few days another stranger came along and offered the farmer \$85 per acre for his farm. The farmer hunted up purchaser no. one and paid him the \$500 to release him from their contract. He then went to hunt up purchaser no. two, but he could not be found, neither could the first purchaser be found again.

Few roads, if any, in this section have done the extensive advertising that has been done by the "Henderson Route," and from all reports, they are reaping the benefit that is sure to follow judicious advertising. Mr. L. J. Irwin, the general passenger agent, has done a great deal to make his road popular, and the enforced additional equipment and new heavy rail attest the success with which he is meeting.

Farm For Sale.

Farm of 60 acres two miles from Spoutspring and six miles from Clay City, nearest railroad point. This farm is an excellent fruit farm and has on it now about 100 bearing fruit trees and 50 young apple trees. There are also some grape vines on the place. All kinds of fruit do exceedingly well on this place.

I want to sell this farm with the growing crop of corn of 14 acres, 35 stands of bees, and the abundant peach crop. This place is specially adapted to bees, there being an abundance of poplar, linden and other honey-producing trees. This farm is a bargain for one with small capital. A report from Frankfort says Gov. Beckham will recommend to the Legislature to amend the Constitution so as to provide for removing the State Capitol from Frankfort. It is to be hoped that he will, and that Lexington will be selected for the place. It is better suited than any other city in the State. Its railroad facilities are unequaled and here hotel accommodations are adequate and beauty of landscape unsurpassed.

The "Henderson Route" officials report very heavy travel via their line to Oklahoma, account opening of the new land.

The Leader says that a company of Lexington capitalists have secured leases on several thousand acres of land in the southeastern part of Madison, near the Jackson and Estill county lines. They will proceed at once to develop the country, as there are unmistakable signs of oil in that region. Experts who have gone over the field report the finding of the same formation in the rocks there as in the Wayne and Rowan county fields. An old well abandoned in 1865 on account of the death of one of the operators, has recently been reopened and found to contain an abundance of salt water, and emptied a strong flow of gas. Prof. A. M. Miller, geologist at the State College, says the Kentucky fields are richer in possibilities for oil than Virginia, on account of the depth of the shale.—Richmond Pantagraph.

The Louisville, Henderson & St. Louis Railway—"Henderson Route"—is relaying its entire road with new heavy steel rail, which is bound to make it still more popular with the public.

Mr. Cottingham resides at Lackland, Ark. This remedy is for sale by J. W. Dawson & Bro. and Morgan McKinney.

Another statement of the Clay City National Bank appears in this issue. As usual it furnishes very interesting reading matter for those concerned in this solid institution.

For the first time since July 6, rain fell in an appreciable quantity in this vicinity Monday night and Tuesday morning. Seldom has rain been more welcome here. For two weeks vegetation has been withering for lack of moisture beneath a burning sun. We have passed long days and sweltering nights devoid of ease because of intense heat, and rain was the only hope of respite.

A Cure For Cholera Infantum.
"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took Chamberlain's Colic Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered, and is (nearly a year since) a vigorous healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by J. W. Dawson & Bro. and Morgan McKinney.

The Making of Good Coffee

Begins in the growing. Anywhere between the plantation and the coffee pot the flavor may be changed, the quality spoiled by carelessness, inexperience, or unscrupulous methods. From the time Arbuckles' Coffee leaves the hands of the grower until it reaches the user in a sealed packet, it is handled with the same watchful care, the same thought for cleanliness, that you would give any article of food that goes on your table. That's the reason it costs the grocer a cent a pound more than its cheap imitations. The extra cent you pay for

ARBUCKLES' Roasted Coffee

buys much more than a cent's worth of quality and strength. A pound of Arbuckles' Coffee will give you more cupfuls of better coffee than you would get from other package coffees.

Be sure you get Arbuckles' Roasted Coffee. Other package coffees are but imitations of Arbuckles'.

In each pound package of Arbuckles' Roasted Coffee there is a list of articles. With each package in which the list is found the purchaser has bought a definite part of some article to be selected by him or her from the list, subject only to the condition that the signature on the package is to be cut out and returned to our Notice Dept. You should see this list. Address all communications to

A YOUNG LADY'S LIFE SAVED.

At Panama, Columbia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysintery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by J. W. Dawson & Bro. and Morgan McKinney.
